

PANCH TATVAM
NAMOSTUTEY

INVITATION

to take

**Global Pledge
of**

FIVE EES

at your place of convenience

Ethics

Practice conscientiously right from the start.

Earth

Stop abuse. Liveable planets are hard to find.

Environment

Protect and maintain as own faith.

Energy

Conserve, optimise and go green.

Economy

Strive for stability and sustainability.

E1

Ethics

Practice conscientiously right from the start.

*I shall practice Ethics
in all my dealings right
from the start.
I shall...*

- Never give, take or encourage bribe.
- Never conspire or do character assassination or falsify facts for self serving motive.
- Never try to undermine prevailing law or authority.
- Never damage the system for personal gains.
- Always uphold the dignity of fellow humans.
- Shun violence as means to bring a change or achieve a goal however noble it may be.
- Always encourage lawful, democratic and peaceful process.
- Strive for fair and quick justice.
- Defend my values with my life when need arises.

E2

Earth

Stop abuse. Liveable planets are hard to find

*I shall never abuse
mother Earth.
I shall...*

- Shun reckless digging, blasting, destroying forests or over exploitation of natural resources.
- Respect the mountains, the plains, the deserts, the oceans, the lakes and rivers, the flora and fauna as they are and never disturb their equilibrium, inadvertently or otherwise.
- I shall endeavour to restore the health of mother earth at the earliest opportunity available.
- I, as a patriot, shall uphold the dignity and honour of my country and countrymen, all over the world.
- Defend mother earth with my life when needed.

E3

Environment

Protect and maintain as own faith

I shall protect the Environment as my own religion or faith. I shall...

- Never allow any activity resulting in air, water, land or noise pollution.
- Volunteer to consciously monitor and control dust build up, gas emissions, liquid effluents and solid wastes from polluting surroundings.
- Ensure implementation of risk mitigation strategies caused by the pollution.
- Proactively report the non-compliance by anybody to the respective authorities and demand action.
- Clean cities, clean villages, clean rivers, clean lakes shall be one of my mottos.

E4

Energy

Conserve, optimise and go green

I shall conserve and optimize the consumption of Energy. I shall...

- Use state of art and energy efficient gadgets, equipment, machinery and technologies to minimize energy consumption without affecting the output.
- Proactively discourage power theft and prosecute the defaulters as per the law.
- Discourage and strive to eliminate the use of all such fuels which add to the global warming.
- Encourage generation and use of green energy such as solar, wind, wave and bio fuel energy to the maximum. I shall promote innovation at all levels.
- I shall educate and update the people periodically about energy conservation measures; exchange information about newer technologies available in my sphere of activity.

E5

Economy

Strive for stability and sustainability

I shall strive to bring about stability and sustainability into the Economy. I shall...

- Pay taxes when due.
- Bring transparency in the business transactions and the financial system.
- Actively encourage alternatives to speculative market.
- Expose black money transactions.
- Check any malpractice by health and life insurance providers.
- Promote such candidates as leaders, who would invest in education, health, food and housing sectors.
- Work towards making the country self sufficient and self sustaining and a world leader.
